## The Wine Team Global AB

Hereby offset 173 tonnes CO<sub>2</sub>e for the lifecycle emissions of projected sales from the Ludwig Bergh product line in Sweden between 1 September 2022 - 31 August 2023.

Emissions are offset in the Gold Standard certified project ADES.

The project aims to replace the need for wood and coal with efficient stoves and solar cookstoves. Beyond reduced carbon emissions the project contribute to improved indoor air quality, job creation and environmental education in participating schools.
